**Placement Goals**

- Numerical projections or targets used to measure progress towards achieving equal employment opportunity for women and minorities.
- A placement goal is established for a job group when the percentage of women or the minority groups (Blacks, Hispanics, Asian/Pacific Islanders, and American Indians/Alaskan Natives) employed in a particular job group is less than would reasonably be expected given their availability percentage in the recruitment area.
- BAS HR Staff will develop recruitment, advertising, and diversity strategies to meet placement goals and ensure an applicant pool which includes women and underrepresented groups including veterans and individuals with disabilities.

Selecting Validated Assessments

- **Pre-employment Testing and Selection Methods**
  - Requesting work samples (such as presentations, writing, and skills demonstrations/simulations) are additional tools used to assess candidates
    - Test instruments along with their administration procedure and scoring rubric, must be approved by Human Resources and the Office of Faculty and Staff Affirmative Action prior to use (approx. 5 weeks)
  - Posted in the advertised job description to inform applicants of the testing requirement
  - Administered consistently across the hiring process
  - Contact Shared Services or the FTEHS Service Center for information regarding job assessments that have been validated and approved by HR

- **Pre-employment Testing Alternatives**
  - Request job related written certifications of completion for coursework
  - Request technical/industry certifications (as related to the position) to provide a measure of skill aptitude to further evaluate qualifications.

Phase 3: Monitoring & Sourcing

- Overview
- Menu of Services
- Applicant Pool Review
- Underperforming Recruitment Strategies
- Phase 3 - Search Committee Activities
  - Best Practices in Screening Applications
  - Screening tools and resources

Overview

- Review applicant pool vs. availability statistics reports
- Report on applicant vs. availability statistics. Modify advertising & outreach strategy as approved. Create queries & perform outreach to potential applicants upon request
- Advise and/or approve recruitment and advertising plan changes
- Review applicant pools; analyze pool performance; advise on strategies for underperforming recruitments with placement goals in coordination with HM
- Screen all applications received during the minimum posting period against advertised minimum and preferred requirements
- HR: Maintain iRecruit Applicant Tracking System (ATS). OFSAA: Maintain Affirmative Action Information System (AAIS)
Menu of Services

- Reviewing applicant pool demographics against availability indicators to determine if we have achieved target diversity in the applicant pool.

- Analyzing advertising plan performance to determine if positions are generating sufficient activity to attract qualified and diverse candidates to our applicant pool and generate return on investment.

- Recommending updates to strategies for underperforming recruitments with placement goals to avoid failed searches.

- Building key talent searches on professional social networks based on advertised job requirements to identify qualified passive applicants for positions.

- For VC sponsored initiatives, provide full service support including screening applications and coordinating interview logistics.

Applicant Pool Review

- The AACO, in collaboration with the Hiring Manager and other BAS Unit HR Staff, will review applicant pools with placement goals to determine if we have achieved target diversity in the applicant pool.

- The “applicant pool vs. availability analysis” compares the number and percentage of women and minorities who applied for a given position at UCR against the percentage of women and minorities available in the recruiting area.

- Applicant Pool vs. Availability Results
  - If the applicant pool diversity > market availability = above availability.
  - If the applicant pool diversity < market availability = below availability.
    - Only below availability indicators for department placement goals influence short list decisions.
    - A below availability indicator is not an automatic denial, provided the recruitment plan design is comprehensive and reflects a good faith effort to eliminate the placement goal.
Applicant Pool Review

Example – Applicant Pool Statistics (Analyst V)

- Department goal = 1 Hispanic (affects short list decision)
- Org and Campus goals = 5 Asian/Pacific Islanders (does not affect short list decision but important for campus wide diversity goals)

Example – Applicant Pool vs. Availability Statistics (Analyst V)
Underperforming Recruitment Strategies

- The AACO, in collaboration with the Hiring Manager and other BAS Unit HR Staff, will recommend **updates to strategies for underperforming recruitments, specifically those with placement goals**, to avoid failed searches and/or short list concerns.

- **Strategies include but are not limited to:**
  - Downloading expressions of interest into the applicant pool to increase the diversity of qualified applicants.
  - Monitoring LinkedIn and Job Target advertisements to determine the amount of internet traffic the posting is generating.
  - Generating a search on the LinkedIn network to identify potential passive applicants who meet our job requirements.
  - Inmail potential applicants on LinkedIn and invite them to apply to the position.

Underperforming Recruitment Strategies

- Example – LinkedIn Analytics

- Example – Key Talent Search
Phase 3 - Search Committee Activities

Chair
- Review all search committee comments to develop the short list
- Move expressions of interest into the applicant pool, as needed to achieve a sufficiently diverse and qualified pool

AAACL
- Ensure fairness and equity for all applicants, in partnership with the Search Committee, during the review of applications
- Ensure all applicants who apply during the minimum posting period are reviewed and considered

Members
- Screen all applications received during the minimum posting period against advertised minimum and preferred requirements
- Note: Several bargaining unit contracts contain language related to applicant screening. Refer to the appropriate contract for specific requirements

Best Practices In Screening Applications
- All applicants must be reviewed and considered
  - Applicants are those who apply during the initial application period
  - Candidates who apply after the initial application period will be considered “expressions of interest” and not viewable by the search committee
- Multiple reviewers of all Applicants to ensure more than one person assesses their qualifications
- Applications are screened against the advertised/posted objective, non-comparative, and job related minimum and preferred qualifications
  - New criteria that has not been validated, advertised and included in the posted job description is not introduced into the screening process
  - Applications are screened against education, experience, knowledge, and skill requirements, which are typically observable on the resume
  - Candidates are further assessed during the interview process for softer competencies such as abilities (communication etc.), as they are not typically observable on the resume
  - Refer to bargaining unit contracts for screening requirements for represented staff

Obtaining Short List Approval

- Submitting Short Lists to OFSAA for Approval [Chair or Chair’s Associate]
  - Login to iRecruit and go to “review applicant pools”
  - Select the name of the recruitment if there are multiple in your queue
  - Click on the “application review” tab
  - Enter a minimum requirement (all applicants), interview code (all applicants) & decision code (applicants not selected for interview) to finalize the short list
  - Click the short list review button. The action will be greyed out and not editable
Obtaining Short List Approval

- **Short List Review Process (OFSAA)**
  - Short lists are typically evaluated and returned within 48 hours from submission
    - OFSAA approval required before scheduling interviews
  - If the short list is deemed to represent a sufficiently diverse applicant pool, the short list will be approved.
    - Once approved, the applicants can then be contacted for interviews.
  - If the shortlist is not sufficiently diverse in light of the department's placement goals, the OFSSA will contact the AACO to discuss how the pool might be diversified
    - Ideally, this is a rare or non occurrence as the AACO, in collaboration with the Hiring Manager and BAS HR Staff continuously review applicant pool performance during and immediately after the minimum posting period to identify and develop contingency plans to address underperforming recruitments
    - Additionally, recruitment plans with placement goals are evaluated to ensure broad outreach to diverse applicants, so that such good faith efforts are balanced against below availability indicators to ideally obtain OFSAA's approval

Preparing to Interview

- **About the Interview Toolkit**
  - Upon receipt of OFSAA's approval of the short list, BAS Shared Services or FTEHS Service Center staff will prepare an Interview Toolkit
    - The Kit will be finalized in partnership with the Hiring Manager for the position and submitted to the AACL for use by all committee members before, during, and after the interview and deliberation process.
    - The Kit also streamlines administration, as it includes pre-populated data about the recruitment, applicants, and committee members as required for documentation standards
    - As a reminder, HR Shared Services and FTEHS staff are available to act as the AACL for a recruitment (participation as full committee member) or provide AACL support by facilitating the orientation and deliberation process (no committee participation or evaluation of applicants).

➢ Note: Search Committees are responsible for printing candidate applications and resumes

Conducting Phone Interviews

➢ Conducted to initially screen the applicant for information such as availability, salary requirements, special position requirements (e.g. ability to perform shift work) and other preliminary information.

➢ Although a phone interview should not ordinarily take the place of the in-person interview, it is possible to screen out an applicant due to information obtained during this initial screening.

➢ Phone interviews should be properly documented on the template provided and attended by all search committee members if possible.
Legal, Regulatory, and UCR Institutional Framework

**Affirmative Action**

- Required by federal regulations focusing mainly on hiring of underrepresented women and ethnic/racial groups
- Universities, and those that manage within those institutions, are required to take “affirmative action” (action beyond placing an ad) to ensure a diverse workplace
- Federal regulation requires institutions to:
  - a) Ensure diverse pools of applicants for campus positions
  - b) Develop and implement affirmative action plans that identify areas of underutilization of minorities and women
  - c) Develop and disseminate annual placement goals and demonstrate good faith efforts to eliminate underutilization

**Equal Employment Opportunity**

- Required by federal and state laws which focus on employment. It provides for equal access to employment opportunities, and prohibits discrimination
- A broader scope of protection beyond race, gender, to include: color, national origin, religion, physical or mental ability, ancestry, marital status, age, sexual orientation, status as a covered veteran and on the basis of citizenship

**Diversity**

- Dimension of diversity include, but are not limited to age, ethnicity, gender, physical abilities/qualities, race, sexual orientation, educational background, geographic location, income, marital status, military experience, parental status, religious beliefs, work experience, and job classification
- Valuing diversity means creating a workplace that values and includes differences, recognizes the contributions that individuals with many types of differences can make and maximizes the potential for all
Conducting Panel Interviews

Conflict of Interest

- Search committee members must ensure no conflict of interest in relation to the applicants under consideration
- Must never be individuals who may have interest in the position.
- Some examples include but not limited to a relationship to an applicant by any legal definition of family or as a near relative.

Best Practices In Developing Interview Questions

- Developed to assess the advertised competencies for the position
- Aligned with the campus' core competencies, which are part of the recruitment, selection, and performance management process (example: teamwork & collaboration, results orientation, job mastery etc.)
- Behavioral/competency based interview questions do not simply ask “if” they ask “how". They probe specifically for past behaviors, competencies and characteristics which are believed to predict future behavior
- Many questions follow the S.T.A.R. format and ask the candidate to describe a situation or task, the action they took, and the result or outcome.
- Example, to assess the behavioral competency “Quality”, a behavioral interview question is:
  - Tell me about a time when you found it necessary to speak to co-workers about the quality of their work because it posed a real or potential risk to the organization. How did you approach your co-worker? What was their response?
Conducting Panel Interviews

- Best Practices In Asking Interview Questions
  - Ask approved pre-determined job related interview questions of all applicants
  - Follow-up and clarifying questions related to an original question are appropriate, but new questions should not be introduced
  - Avoid asking questions or engaging candidates in conversations that are personal in nature

Conducting Panel Interviews

</tr>

<tbody>
<tr>
<td>➤ Ensure each committee member receives interview materials before the interview (as assigned)</td>
</tr>
<tr>
<td>➤ Ensure each committee member receives printed copies of interview materials the day of the interview (as assigned)</td>

<tr>
<td>➤ Conduct the Committee Orientation (AACI)</td>

<tr>
<td>➤ Determine order of questions (Chair)</td>
</tr>
<tr>
<td>➤ Assign a timekeeper (Chair)</td>
</tr>
<tr>
<td>➤ Review interview toolkit, instructions, and applicant materials (Committee)</td>
</tr>
</tbody>
</table>

IDEA: Consider allowing all applicants 15 minutes to review interview questions prior to the interview start time. This method gives the applicants only enough time to organize their thoughts and ensure you receive organized responses. Since the questions are experienced based, the additional time will allow them to highlight factual experience.
Conducting Panel Interviews

Sample Interview Process/Format

During
- Introduce panel members to the applicant
- Briefly summarize the role they are being interviewed for
- Describe the interview panel process (e.g. each alternates questions and all will take notes)
- Each panel member takes turns asking questions
- Interviewee is given time at the end to ask questions
- Interviewee is informed of the next step (e.g. contacted either by phone or in writing of the outcome)
- Thank the candidate for coming and ensure someone shows the candidate out
- If interview questions provided to the applicant, have them place in a confidential shred bin on their way out. Should not be included in the interview record
- **BEST PRACTICE:** Do not discuss applicants between interviews, so that individual member ratings reflect their assessment

Evaluating Candidate Responses

    - Consider conducting reference checks on all finalists before the final selection is made.
    - Ask the same basic questions about all applicants for whom you obtain a reference.
    - Weigh information you receive in the same manner for all applicants.
  - Many employers are prohibited from providing information without release, so if requested, send the signed Applicant Release and Disclosure consent form and the job description (optional) in advance of your telephone call.

- **Reference verification documentation should include:**
  - Reference provider name, position, professional relationship to finalist, and contact information.
  - Job-related questions asked and reference provider’s responses.

Determining Starting Salaries

- **Entering Exceptional Salary Offer Requests Into CMT**
  - Department Coordinators enter exceptional salary offer requests into the CMT and check out the action out to the Division Head for approval and upon receipt, route the request to the Vice Chancellor Coordinator.
  - Exceptional salary offer requests are separate action from the recruitment of a position, that requires a specific review or analysis that is associated with the finalist.
  - The Vice Chancellor Coordinator will review and coordinate the Vice Chancellor’s approval. If the request is approved, the action will be routed to Shared Services or the FTEHS Service Center.
  - Shared Services or FTEHS Staff will conduct a salary analysis, and develop salary placement recommendations for VC and HR approval.

---

Determining Starting Salaries

- **Establishing A Starting Salary**
